

COMMONWEALTH OF KENTUCKY  
BEFORE THE PUBLIC SERVICE COMMISSION

In the Matter of:

SOUTH CENTRAL BELL TELEPHONE COMPANY'S	)	
PROPOSED 0- OPERATOR TRANSFER SERVICE	)	CASE NO. 91-187
TARIFF FILING	)	

O R D E R

This matter arising upon motion of AmeriCall Systems of Louisville ("AmeriCall") to compel South Central Bell Telephone Company ("South Central Bell") to respond to certain data requests propounded by AmeriCall, and it appearing to the Commission as follows:

1. AmeriCall seeks an Order compelling South Central Bell to respond to Items 1, 2, 3, 4, and 5 of its September 6, 1991 data request.

2. The questions which South Central Bell objected to answering relate to the provision of operator services prior to the inception of the Operator Transfer Service tariff.

3. South Central Bell objected to the requests as not relevant to the question of whether the Operator Transfer Service tariff was in the public interest.

4. In a response to the motion filed September 26, 1991, South Central Bell contends that it has provided AmeriCall with cost and revenue information concerning the proposed tariff.

5. In its motion AmeriCall states that each of the data request items is relevant and that the Commission can only

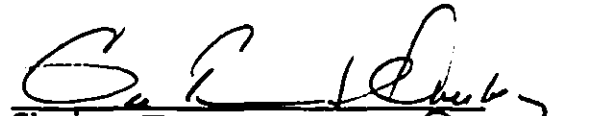

determine whether the proposed service is in the public interest by comparing it to South Central Bell's prior procedures for handling "0-" interLATA calls.

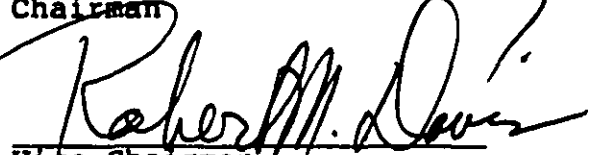

AmeriCall's motion is reasonable and should, therefore, be granted. The information requested is relevant to the proceeding and is not burdensome to produce.

The Commission, having been otherwise sufficiently advised, HEREBY ORDERS that AmeriCall's motion to compel South Central Bell to provide responses to Items 1, 2, 3, 4, and 5 is hereby granted. Accordingly, South Central Bell shall file its response to AmeriCall's data request by September 30, 1991.

Done at Frankfort, Kentucky, this 26th day of September, 1991.
